DAILY SCHEDULE

| | |
|-----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 7:00 – 7:00 am | Wake up and play outside for 30 minutes. This allows puppy to get energy out and to potty several times. This sets your day of potty training up for success. Have a bowl of water outside so the puppy has adequate water intake after being in the kennel all night. |
| 7:30 to 8:00 am | Training session before breakfast, they are excited to learn and are highly food motivated before breakfast. |
| 8:00 to 8:15 | Food and water. Feed puppy a full bowl of food, let them eat as much as they would like in a 15 minute time period. |
| 8:15-8:30 | Potty. 15-20 minutes |
| 8:30 to 9:30 | Indoor play |
